

**'MAF aircraft fly all sorts of things
To help people out,' Mike said.
'This Advent, let's build a list of them
All the way from A to Z.'**

O is for orthopaedic surgeon,
That's a special sort of physician.
One who treats bones and joints which hurt
And puts them in the right position.

The next stop for Mike was Kenya,
He was collecting a medical team,
Then flying them to a faraway village
Where the patients were waiting to be seen.

Mike landed the plane on the runway,
And the doctors all climbed inside.
The journey would take two hours,

So they'd have an enjoyable ride.

As they neared their remote destination,
The friends could see from the plane
A queue of people forming below,
Some sad and clearly in pain.

The doctors were soon very busy
Helping those in the queue that had formed.
They treated loads of people,
Whose lives were now totally transformed.

**Orthopaedic surgeons are just some of the
folk
That MAF flies through the skies.
Join us tomorrow for the next letter,
And another exciting surprise.**
