

**'MAF aircraft fly all sorts of things  
To help people out,' Mike said.  
'This Advent, let's build a list of them  
All the way from A to Z.'**

Q is for qualified engineer,  
That's a person who can mend a plane.  
They sort out all of the problems,  
And soon have them flying again.

So the friends headed back to South Sudan,  
They went back to the blistering heat.  
A plane was stuck in a faraway field  
To mend it, a difficult feat!

This was just the job that Foxtrot liked,  
So he grabbed his trusty toolbox.  
He'd soon have the aircraft flying again;  
What a truly remarkable fox!

Below, he could see his engineer friends,  
As Mike's little plane descended.  
If they gave the stuck plane a new engine,  
It would soon be ready and mended.

**Qualified engineers are just some of the  
passengers  
That MAF flies through the skies.  
Join us tomorrow for the next letter,  
And another exciting surprise.**
