

**'MAF aircraft fly all sorts of things
To help people out,' Mike said.
'This Advent, let's build a list of them
All the way from A to Z.'**

X is for X-ray fixer and Y's for YouTuber –
Not often seen in the same space.
But both of them rely on MAF planes
If they work in a hard-to-reach place.

Mike and Foxtrot will be busy today
As two people need their assistance.
The first passenger, Desmond, is in PNG,
Which is quite a considerable distance.

Desmond fixes machines that make the X-rays
Doctors use to find out what's wrong.
Being flown to the hospital saves him time;
To drive would take far too long.

Desmond was soon dropped off safely
There was another passenger waiting.
Noel needed Mike's help, and his aircraft,
For the video he was creating.

Noel was waiting in Kenya
With his camera and video kit.
He was making a film about MAF,
Which he'd shoot in Mike's cockpit.

The video would go on YouTube
So that people could watch it online
And learn about the things MAF does
And how it's a real lifeline.

**X-ray fixers and YouTubers are just some of
the passengers
That MAF flies through the skies.
Join us tomorrow for the next letter,
And another exciting surprise.**
