

**'MAF aircraft fly all sorts of things
To help people out,' Mike said.
'This Advent, let's build a list of them
All the way from A to Z.'**

Z is for zoologist,
A very clever person indeed.
Who knows about all sorts of animals,
And all the things they need.

In the mountains of Papua New Guinea
Live tree kangaroos that are very distinct.
But the people in the region hunt them,
So the poor creatures may soon be extinct.

And though it's nearly Christmas,
And the end of our Advent trip,

There's just time to collect two more people
Waiting below on a little airstrip.

'Hello friends, we're Jim and Jean,
And we study the tree kangaroo.
Please take us up in your little plane,
It would give us an excellent view.'

'Not so long ago there were hardly any
Of these beautiful creatures remaining.
But the population is growing again,
Thanks to our local campaigning.'

**Zoologists are just some of the passengers
That MAF flies through the skies.
Join us tomorrow for Christmas Day,
And another exciting surprise.**
